SUMMARY REPORT
FT 950-E

March 1966

FOR RELEASE
May 6, 1966

EXPORT TRADE BY COUNTRY

The Bureau of the Census, Department of Commerce, announced today that the rise in U.S. exports of domestic and foreign merchandise, unadjusted for seasonal change, from $2,297.5 million in February to $2,817.9 million in March[1] [2] reflected increases in exports to all areas as follows: Western Europe, from $829.6 to $1,004.7 million; Canada, from $460.2 to $567.7 million; Latin American Republics, from $306.3 to $383.1 million; and "all other countries", from $701.4 to $862.4 million. These totals include data on exports of Special Category commodities which dropped from $117.6 million in February to $91.7 million in March.

With Special Category commodities excluded, domestic and foreign exports rose from $2,179.9 million in February to $2,726.2 million in March. This change reflected increases in exports to Western Europe from $770.8 to $975.2 million; Canada, from $457.4 to $567.0 million; Latin American Republics, from $303.4 to $379.6 million; Japan, from $174.6 to $194.3 million; and "all other countries", from $454.1 to $591.8 million. Exports to O.E.C.D. countries in Europe rose from $749.0 to $951.4 million and those to E.E.C. (European Economic Community) countries from $424.6 to $539.9 million.

From February to March, increases were reported in exports to all continents. Exports to Europe rose from $790.3 million in February to $993.5 million in March reflecting increases in exports to individual countries of this continent as follows: West Germany, from $121.2 to $166.1 million; United Kingdom, from $138.1 to $175.6 million; the Netherlands, from $93.8 to $117.9 million; Italy from $67.9 to $88.5 million; Spain, from $49.2 to $65.4 million; Switzerland, from $32.0 to $47.2 million; France, from $84.0 to $98.7 million; and Belgium and Luxembourg, from $57.8 to $68.7 million. Exports to North America rose from $618.7 to $779.1 million largely due to increases in exports to Canada from $457.4 to $567.0 million (as noted above) and Mexico, from $86.9 to $108.6 million.

The increase in the Asia total, up from $447.2 million in February to $533.6 million in March, primarily was due to increases in exports to India, from $88.4 to $116.9 million; Japan, from $174.6 to $194.3 million; and Israel, from $9.8 to $22.0 million. Exports to Africa climbed from $86.2 to $132.0 million. This change reflected higher levels of exports to most of the countries of this continent the more notable of which were United Arab Republic (Egypt), from $12.0 to $22.8 million and Republic of South Africa from $23.2 to $41.4 million. Increases in exports to Brazil, from $31.5 to $53.6 million; Venezuela, from $44.6 to $51.7 million and Peru, from $23.8 to $29.3 million were the chief factors in the rise in exports to South America from $177.2 to $217.2 million. Exports to Australia and Oceania rose from $60.2 to $70.2 million chiefly due to an increase in exports to Australia from $49.5 to $58.6 million.

---

[1] See the March 1966 issue of Report FT 900-E for seasonally adjusted figures on total exports excluding Military Assistance Program—Grant-Aid shipments. Seasonally adjusted data are not available for total exports including Military Assistance Program—Grant-Aid shipments or by country of destination.

[2] Month-to-month changes in exports and similar series often reflect primarily irregular movements. Cumulations of data over 3 or 4 month periods are desirable to identify underlying trends.

EXPLANATION OF STATISTICS

COVERAGE: Export statistics include government as well as nongovernment shipments to foreign countries. The export statistics, therefore, include Department of Defense Military Assistance Program--Grant-Aid shipments (for which separate figures are shown in the footnotes of this report), Mutual Security Program economic assistance shipments, and shipments of agricultural commodities under P.L. 480 (The Trade Development and Assistance Act of 1954, as amended) and related laws. (The separate information which is available on exports under P.L. 480 and related laws may be obtained from the Economic Research Service and the Foreign Agricultural Service of the Department of Agriculture.) Shipments to U.S. armed forces and diplomatic missions abroad for their own use are excluded from export statistics. U.S. trade with Puerto Rico and U.S. possessions is not included in this report, but the export trade of Puerto Rico with foreign countries is included as part of the U.S. export trade. Merchandise shipped in transit through the United States between foreign countries, not entered as imports, is not included in export statistics.

COUNTRY OF DESTINATION: Although the country of destination is defined as the country of ultimate destination or the country where the goods are to be consumed, further processed, or manufactured, the statistics do not always reflect this definition, as the shipper may not know the ultimate destination of the shipment. In such cases, the shipments are credited to the last country, as known to the exporter at the time of shipment from the United States, to which the goods are to be shipped in their present form.

VALUATION: The valuation definition used in the export statistics is the value at the seaport, border point, or airport of exportation. It is based on the selling price (or cost if not sold) and includes inland freight, insurance, and other charges to the port of exportation. Transportation and other costs beyond the U.S. port of exportation are excluded. None of the values have been adjusted for changes in price level.

RELIABILITY: The statistics presented in this report are based partly on sample data and therefore are subject to sampling variation that may cause them to differ somewhat from the results which would have been obtained from processing all export documents. For the figures shown in this report, the sampling variability can be ignored since the probable variability due to sampling is either less than $50,000 (the largest variation from rounding of figures) or less than a trivial percentage of the individual totals shown.

In addition to the effects of sampling variation, the data in this report are subject to errors from such sources as the carryover of data from month to month, errors in reporting or processing, the estimation of shipments valued under $100, and the omission of parcel post shipments valued under $50. Although the effect of such errors on the rounded totals in this report is probably small, the possibility of inaccuracy should be taken into account, particularly in using figures of relatively small magnitude.

Further information regarding coverage, valuation, compilation procedures and precision of export data is contained in the foreword of Reports FT 410 and FT 420. For complete statement, see foreword in Foreign Commerce and Navigation of the United States.

For sale by the Bureau of the Census, Washington, D.C. 20233. Price 10¢ per copy.
Annual subscription (FT 900, 930, 950, 970, 975, 985, and 986 combined) $5.00.

*See footnote 2 on front page of this report for remarks concerning comparability of recent month-to-month data.

- Represents zero. (Z) Indicates less than $50,000. [a-e] Countries included in each area are identified with the same literal footnote as the area. [1]For definitions of countries as used in this report, refer to current edition of Schedule C, Classification of Country Designations Used in Compiling the U.S. Foreign Trade Statistics, as amended by Public Bulletin C-1. [2]Country detail is not reported in the export statistics for Special Category commodities for security reasons. For certain areas, export totals include Special Categories, as shown at the beginning of the table. Export figures for other areas, continents, and countries represent total exports less exports of Special Category commodities. A list of the Special Category commodities is presented in the January 1965 issue of Report FT 410. [3]Includes $70.9 million of Department of Defense Military Assistance Program--Grant-Aid shipments ($12.4 million to Western Europe). [4]Includes $87.2 million of Department of Defense Military Assistance Program--Grant-Aid shipments ($36.4 million to Western Europe). [5]Includes $158.1 million of Department of Defense Military Assistance Program--Grant-Aid shipments ($48.8 million to Western Europe). [6]Includes $82.4 million of Department of Defense Military Assistance Program--Grant-Aid shipments ($19.7 million to Western Europe). [7]Includes $84.4 million of Department of Defense Military Assistance Program--Grant-Aid shipments ($21.5 million to Western Europe). [8]Includes $226.0 million of Department of Defense Military Assistance Program—Grant-Aid shipments ($68.2 million to Western Europe). [9]Effective with the statistics for January 1966, the country designation "Free Territory of Trieste," administered jointly by Italy and Yugoslavia, became obsolete. The information shown for Italy and Yugoslavia for January 1966 and subsequent periods includes data on shipments to portions of the "Territory" administered by each. [10]This is an arbitrary category established with April 1958 statistics to cover certain shipments to unidentified countries in Western Europe. [11]Country designation "Gaza Strip" established May 1965. Formerly included under the designation "Palestine" which became obsolete May 1965. [12]Country designations "North Viet-Nam" and "South Viet-Nam" established January 1966. These areas were formerly included under the designation "Viet-Nam." [13]Country designation "Singapore" established January 1966. Formerly included with other countries under "Malaysia." [14]Country designation "Gambia" established January 1966. Formerly included with other countries under "British West Africa." [15]"Zambia," "Rhodesia (Southern Rhodesia)," and "Malawi" shown separately beginning with the statistics for January 1966. Formerly data for these countries were shown under the designation "Zambia (formerly Northern Rhodesia), Southern Rhodesia, and Malawi."
